Getting Mail to the Iowa DNR- Air Quality Bureau

The Air Quality Bureau is encouraging you to send correspondence electronically, so we can respond efficiently while reducing the need for paper. If you have a specific individual or email address for electronic submissions, please continue to use that. Find [Air Quality Bureau staff contacts here](#) or at www.iowacleanair.gov by navigating to Air Quality Popular pages at the bottom of the page.

You are also encouraged to use DNR's online submittal services. Using these online processes speeds the response time, and includes options to pay fees online. Find three electronic applications the Air Quality Bureau offers at www.iowadnr.gov/eAirServices.

- Using EASY Air to submit your construction and operating permits electronically will speed the permitting process. Information on how to use EASY Air, including fact sheets and a recorded webinar, is available on the website.
- The State and Local Emission Inventory System, known as SLEIS, for emission inventories.
- The Asbestos Notification System for asbestos notifications of demolition or renovation. The system is also available on the main asbestos page, iowadnr.gov/asbestos.

The Air Quality Bureau will continue to process regular mail received through the U.S. Postal Service and other delivery services. We thank you for your patience and flexibility during this time.

A note on Iowa DNR and COVID-19

The Iowa Department of Natural Resources is working with state and local officials to reduce the spread of COVID-19 and has transitioned employees to work remotely. DNR offices are closed to the public during this time and only available by appointment.

In another effort to further reduce the spread of COVID-19, the DNR is encouraging the use of the online services for submitting applications, payments and other daily tasks and interaction with DNR staff.

- [Full list of DNR's online services](#)
- [Up-to-date information on DNR services, facilities and events impacted by COVID-19](#)
- [Technical information for regulated businesses in regards to COVID-19](#)

We thank you for your patience and flexibility during this time. If you need to contact DNR staff you can reach them by email or phone or by calling 515-725-8200

DNR's Air Quality News listserve is targeted to the regulated public and consultants to deliver timely regulatory news, program updates, and technical guidance to your email. If you have difficulty, please contact DNR's Wendy Walker at 515-725-9570.
